

### About the Position:

Early detection health information practitioners collect, review, organize and manage information within Population Health department programs. This includes ensuring the data quality and analysis with abnormal test results are accurate and complete.

At the Saskatchewan Cancer Agency, early detection health information practitioners are part of a team responsible for overseeing and protecting health data. They ensure information is accurately reflected in the client's record, while also making sure screening program data is organized and shared with regional and national partners.

Early detection health information practitioners develop and conduct regular audits of screening data, followed by an analysis of the audit results as a measure of quality control. They analyze and verify information to ensure accuracy.

Early detection screening program clients sometimes request information from their health record at the Cancer Agency. Early detection health information practitioners respond to these requests in accordance with our policies and provincial legislation.

### Job Requirements:

#### Education

- Grade 12
- Diploma in Health Information Management

#### Credentials

- Active membership with the Canadian Health Information Management Association (CHIMA)

## Work with us!

The Saskatchewan Cancer Agency is a provincial health-care organization dedicated to providing cancer care for the people of Saskatchewan. Our compassionate and knowledgeable team provides leadership in health promotion, early detection, treatment and research for cancer.

We run two cancer centres, the Allan Blair Cancer Centre in Regina, and the Saskatoon Cancer Centre. We also provide services in rural communities in partnership with hospitals through the Community Oncology Program.

Our vision is a healthy population free from cancer, and our more than 900 dedicated employees work hard every day towards this vision.

For the past 90 years, our teams have been leading revolutionary technologies that help make our treatments as effective as possible to help our patients live longer, fuller lives.

In 2022, the Cancer Agency received an Exemplary Standing for safety and quality from Accreditation Canada, the highest achievement a health-care organization can receive.

Note: All positions at the Saskatchewan Cancer Agency require a criminal record check.
