

Nurse Practitioner - Oncology

About the Position:

Nurse practitioners in oncology provide comprehensive direct patient care as a central member of the Medical Services team. As a direct care provider, nurse practitioners (NP) integrate and apply knowledge of cancer pathophysiology, disease progression, treatment modalities, treatment side effects and complications and symptom programs to assess, plan, implement and evaluate the outcomes of best practice and evidence-based care and other clinical interventions.

The NP collaborates with others to support patient navigation in the access of cancer services, care of patients receiving curative therapy, as well as supporting patients requiring palliative management. The NP provides expert clinical care in collaboration with the interdisciplinary oncology team within the Saskatchewan Cancer Agency.

Job Requirements:

Education

- Successful completion of an approved NP program at a minimum of a Master of Nursing level or equivalent
- Successful completion of the Controlled Drug and Substance Act Module (CDSA) from Saskatchewan Polytechnic or Athabasca University. Where this is not complete, the successful candidate is required to complete within one year of date of hire to the position.
- Level C, Basic Cardiac Life Support

Experience

- Minimum 3 years of clinical experience relevant to oncology and/or palliative care and/or acute care

Credentials

- Must be eligible for licensure with the College of Registered Nurses of Saskatchewan (CRNS) and licensed as an RN (NP)

About Us

The Saskatchewan Cancer Agency is a provincial healthcare organization dedicated to providing cancer care for the people of Saskatchewan. Our compassionate and knowledgeable team provides leadership in health promotion, early detection, treatment and research for cancer.

We run two cancer centres, the Allan Blair Cancer Centre in Regina, and the Saskatoon Cancer Centre. We also provide services in rural communities in partnership with hospitals through the Community Oncology Program.

Our vision is a healthy population free from cancer, and our more than 900 dedicated employees work hard every day towards this vision.

For the past 90 years, our teams have been leading revolutionary technologies that help make our treatments as effective as possible to help our patients live longer, fuller lives.

In 2022, the Cancer Agency received an Exemplary Standing for safety and quality from Accreditation Canada, the highest achievement a health care organization can receive.

Note: All positions at the Saskatchewan Cancer Agency require a criminal record check.
