

## Saskatchewan Cancer Agency Surveys, Posters and Brochures

---

Due to the large number of research survey, poster and brochure requests which come to the Agency and the multiple internal recruitment considerations which accompany them, the Data Access Committee (in its authorized capacity) made the decision to offer the following options and criteria for research survey, poster and brochure projects which will collect Agency data (listed below):

### ***The Agency will:***

- Generate a list of eligible patients/clients for the survey and will then mail out the survey (at the cost of the requestor). If the number of letters is beyond our capacity, the requestor and the Agency will work with an external company to outsource the mailing of the surveys.
- Will allow pamphlets/posters to be placed within Agency facilities after approval.
- May allow for compensation for actual costs for patients/clients to participate in initiatives (i.e. travel costs).

### ***The Agency will not:***

- We will not approve/allow the use of incentives to encourage participation (i.e. gift certificates, names put into a draw etc.).
- We will not allow access to our patients/clients within Agency facilities.
- We will not place survey or poster materials within our own communication to patients/clients (i.e. appointment letters etc.).
- We will not hand materials to patients/clients nor explain these surveys/initiatives to them nor gain consent from them.

If you have any questions feel free to contact the Data Access Committee Coordinator at [datarequest@saskcancer.ca](mailto:datarequest@saskcancer.ca).
